saba s guide to studying anatomy at medical  
school Feb 01 2019 web anatomy is the study  
of the structure of the parts of an organism  
such as the human body meanwhile physiology  
focuses on the way those parts work and  
function together for example the heart s  
anatomy means the heart s structure such as  
its valves veins chambers and arteries the  
physiology of the heart means how the heart  
pumps the blood
