Discover where faeries and other mythical creatures are hiding in our modern, urban environment with this beautifully illustrated guide to uncovering magical beings. From the musty corners of libraries to the darkest depths of urban sewers, faeries, boggarts, redcaps, and other fantastical species can be found all around us—but only if we know where to look. And like every other being in the modern world, these wonderous creatures have been forced to adapt to the climate, industrial, and cultural changes of the modern era. Many formerly common creatures from akeki to cave trolls have been driven out by the urban sprawl, technological advancements, and climate change while others, including ether sprites and brownies, have been able to thrive in abundance, creating homes within electrical hotbeds and massive landfills. Featuring descriptions of magical creatures from around the globe, this encyclopedic collection details the history and adaptability of more than fifty different species of fae. Describing little-known and fascinating creatures such as the Luck Pigeon of Baltimore, the akaname of Eastern Asia, and the konderong of South Africa, this book will expose readers to fantastical species from a variety of cultures and communities. Combining scholarship with modern lore and environmentalism, and featuring stunning hand-drawn illustrations, Finding Faeries is a captivating look at the fantastical beings that inhabit our world today. Contains illustrated entries to describe mythological and fantastical creatures from around the world that are organized by habitat; and includes creatures found in fiction such as "Batman," "Pirates of the Caribbean," and the stories of J.R.R. Tolkien, J.K. Rowling, and others. This guide gives not only a taxonomy of size, appearance, habitat, and powers, but also provides descriptions of the cultures that produced them. The Supreme Being Galaxy is the home of immortal and mythical creatures, all of whom are scattered in several parts of the universe. You may have heard of some on Planet Earth. All the gods, demons,

angels, mermaids, and other fantastical creatures of the Supreme Being Galaxy are completely and entirely real and may bear resemblance to the mortal world. In this volume, you will find stories of fantastical creatures, some written by writers and poets of the Supreme Being Galaxy, some written by the mythicals themselves. You will also find heaven and hell and all sorts of other places you may have read about. The Supreme Beings sincerely hope you enjoy your time here.

dark horse /ˈdɑːrk ˈhɔːs/ noun 1. a candidate or competitor about whom little is known but who unexpectedly wins or succeeds. "a dark-horse candidate" Join editor Robert Weller for a curated tour of nine writers who always give as good as they get. From hard science-fiction (James C. Glass' Singularity for Hire) to dark and brutal prehistoric apocalypses (Wayne Kyle Spitzer's A Survivor's Guide to the Dinosaur Apocalypse), from Lovecraftian horror (Bill Link's Torchlight Parade) to zombies and horror comedy (Andy Kumpon's Seeds of the Dead); from farcical romps near foggy moors (Ron Ford's Dr. Jekyll in Love) to lyric and whimsical interludes (M. Kari Barr's A Father's Legacy). Indeed, even from absurd capers (Kevin M. Penelerick's Brother Bob) to tales of unlikely compassion (Erik Schubach's Scythe), you'll be sure to find it here. So grab a seat before the starting gun fires, pour yourself a glass of strange wine, and get ready for the running of the dark horses ...

How was the world as we know it created? What does it mean to be a hero? Where do we go when we die? Why are flood myths so ubiquitous? Anyone who has pondered these and other questions about humanity's ancient beliefs will be fascinated by *The Friendly Guide to Mythology*. Focusing on Greek and Roman mythology but including myths from Africa, Asia, Australia, northern Europe, and the Americas, *The Friendly Guide to Mythology* is filled with compelling stories of gods, goddesses, mortals, and monsters. Beautifully ornamented with photos, line drawings, and quotes, this entertaining guide also includes an A-to-Z listing of the world's most captivating goddesses; profiles of famous writers, collectors, and interpreters of myths; and engaging sidebars. Featuring myths of love, wisdom, and adventure as well as those of violence, jealousy, and pure folly, this accessible collection offers fascinating insight into the human psyche and brings our rich mythological heritage delightfully into focus. Hieronymous Betts is armed with a vast array of bizarre and unsavory pets, from the slimy Slugapotamus to the smelly Sticker bog hog, in a zany easy-to-read story that is filled with hilarious pictures. Many billions of years ago, the universe experienced a drastic event. **THE BIG BANG**. These stories cover from that time in a light-hearted manner that will have you enthralled and laughing from time to time. The stories cover events like the forming of the blue planet, the destruction of the dinosaurs, the advent of man as a new inhabitant of Earth and a whole host of other events which happen to make up this wonderful place where we live, the planet Earth. In this book we discover there are chapters named "Who owns the Sunset?" Another is titled "Who shifted the Rainbow?" Can you imagine what happens when the rainbow gets shifted?" "The Day Sunrise was Late" tells what happens when the unexpected and unimaginable occurs. When man came to live on planet Earth, he discovers many things. "Who put the Stars in the Sky?" He needed to budget his time so he developed "The Time Stick". There is another chapter that details what causes the ice ages but you'll need to read all of the book to find those answers. This unique fantasy collection includes: *The Wonderful Wizard of Oz* *The Marvelous Land of Oz* *The Woggle-Bug Book* *Ozma of Oz* *Dorothy and the Wizard in Oz* *The Road to Oz* *The Emerald City of Oz* *The Patchwork Girl of Oz* *Little Wizard Stories of Oz* *Tik-Tok of Oz* *The Scarecrow of Oz* *Rinkitink in Oz* *The Lost Princess of Oz* *The Tin Woodman of Oz* *The Magic of Oz* *Glinda of Oz* *Mother Goose in Prose* *The Magical Monarch of Mo Dot* and *Tot of Merryland* *American Fairy Tales* *The Master Key* *The Life and Adventures of Santa Claus* *The Enchanted Island of Yew* *Queen Zixi of Ix* *John Dough and the Cherub* *The Sea Fairies* *Sky Island* *The Runaway Shadows* *A Kidnapped Santa Claus* *Nelebel's Fairyland* *The Tiger's Eye* *The Enchanted Buffalo* *Twinkle and Chubbins* *Policeman Bluejay*...

L. Frank Baum (1856-1919) was an American author chiefly known for his children's books, particularly *The Wonderful Wizard of Oz* which chronicles the adventures of a young farm girl named Dorothy in the magical Land of Oz, after she and her pet dog Toto are swept away from their Kansas home by a cyclone. The novel is one of the best-known

stories in American literature and The Library of Congress has declared it "America's greatest and best-loved homegrown fairytale." Edith Nesbit (1858-1924) was the author of world famous books for children - the tales of fantastical adventures, journeys back in time and travel to magical worlds. Nesbit also wrote for adults, including novels, short stories and four collections of horror stories. This edition includes: The Psammead Trilogy: Five Children and It The Phoenix and the Carpet The Story of the Amulet The Mouldiwarp Chronicles: The House of Arden Harding's Luck The Enchanted Castle The Magic City The Wonderful Garden Wet Magic The Book of Dragons: The Book of Beasts Uncle James, or The Purple Stranger The Deliverers of Their Country The Ice Dragon, or Do as You Are Told The Island of the Nine Whirlpools The Dragon Tamers The Fiery Dragon, or The Heart of Stone and the Heart of Gold Kind Little Edmund, or The Caves and the Cockatrice The Magic World: The Cat-hood of Maurice The Mixed Mine Accidental Magic The Princess and the Hedge-pig Septimus Septimsson The White Cat Belinda and Bellamant Justnowland The Related Muff The Aunt and Amabel Kenneth and the Carp The Magician's Heart Nine Unlikely Tales: The Cockatoucan Where you want to go to The Blue Mountain The Prince, Two, Mice, and some Kitchen Maids Melisande Fortunatus Rex and Co. The Sums That Came Right The Town in the Library, in the Town in the Library The Plush Usurpe

Edith Nesbit (1858-1924) was the author of world famous books for children - the tales of fantastical adventures, journeys back in time and travel to magical worlds. Nesbit also wrote for adults, including novels, short stories and four collections of horror stories. When the Grace children go to stay at their Great Aunt Lucinda's worn Victorian house, they discover a field guide to fairies and other creatures and begin to have some unusual experiences. How can broadcasting help us understanding music and its cultural role, both historically and today? To answer this question, 'Music and the Broadcast Experience' brings together fourteen leading music and media scholars, who explore how music and broadcasting have developed together throughout the twentieth and into the twenty-first centuries. Published by Nodens Books. Going Home is one of Barry Pain's late shorter novels. It mixes realism and fantasy with some mild social satire. Plotwise, the book follows young Dora Muse, who meets a boy who has wings and who is called Eagle. They inevitably fall in love, and Going Home is their story. According to Pain himself, writing in 1924, it was well-received by critics but sold poorly (this fact is corroborated by the book's rarity today). Yet Pain still cited it as his best book. And Pain's friend and sometime collaborator, James Blythe, noted in his own copy: "In my opinion this is Barry's best book up to the present." A brilliant, kaleidoscopic narrative of Oklahoma City—a great American story of civics, basketball, and

destiny, from award-winning journalist Sam Anderson NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • NPR • Chicago Tribune • San Francisco Chronicle • The Economist • Deadspin Oklahoma City was born from chaos. It was founded in a bizarre but momentous “Land Run” in 1889, when thousands of people lined up along the borders of Oklahoma Territory and rushed in at noon to stake their claims. Since then, it has been a city torn between the wild energy that drives its outsized ambitions, and the forces of order that seek sustainable progress. Nowhere was this dynamic better realized than in the drama of the Oklahoma City Thunder basketball team’s 2012-13 season, when the Thunder’s brilliant general manager, Sam Presti, ignited a firestorm by trading future superstar James Harden just days before the first game. Presti’s all-in gamble on “the Process”—the patient, methodical management style that dictated the trade as the team’s best hope for long-term greatness—kicked off a pivotal year in the city’s history, one that would include pitched battles over urban planning, a series of cataclysmic tornadoes, and the frenzied hope that an NBA championship might finally deliver the glory of which the city had always dreamed. Boom Town announces the arrival of an exciting literary voice. Sam Anderson, former book critic for New York magazine and now a staff writer at the New York Times magazine, unfolds an idiosyncratic mix of American history, sports reporting, urban studies, gonzo memoir, and much more to tell the strange but compelling story of an American city whose unique mix of geography and history make it a fascinating microcosm of the democratic experiment. Filled with characters ranging from NBA superstars Kevin Durant and Russell Westbrook; to Flaming Lips oddball frontman Wayne Coyne; to legendary Great Plains meteorologist Gary England; to Stanley Draper, Oklahoma City's would-be Robert Moses; to civil rights activist Clara Luper; to the citizens and public servants who survived the notorious 1995 bombing of the Alfred P. Murrah federal building, Boom Town offers a remarkable look at the urban tapestry woven from control and chaos, sports and civics. Shortlisted for two 2019 Saskatchewan Book Awards From Edward Willett, Aurora Award-winning author of Marseguro, The Cityborn, and Worldshaper (DAW Books), among many others, comes twenty-two tales of fantasy, science fiction, and horror, drawn from a long career of telling fantastic tales. A young musician dreams of playing his songs among the stars...A Broadway performer on the lam is forced to direct aliens in The Sound of Music...Strange vegetables with dangerous properties crop up in small-town Saskatchewan...A man with a dark secret gets his comeuppance on a windy night on the prairie...An elderly caretaker on the Moon preserves the memory of the millions who died on Earth’s darkest day...A woman and a bat-like alien must overcome their own prejudices to prevent an interstellar war... From the far future and the farthest reaches of space to the Canadian prairie, from our world to worlds that have never existed to world’s that might some day, rich realms of imagination and the fascinating characters and creatures that populate them await within these stories, some previously published, some seeing print for the first time. Time to go exploring... Praise for Paths to the Stars “I’ve enjoyed every novel of (Willett’s) that I’ve consumed and hoped that his latest work would reach the same high bar. It didn’t – it hurdled right over that bar and left it hanging...Willett’s powerful writing style shines in this story collection...This book hits all the checkmarks for what I feel are the hallmarks of a science fiction work: imaginative, fantastical, and mind-bending. If this work was a meal instead of a book, it would deserve a Michelin star.” – Toby A. Welch, SaskBooks Reviews “This fascinating collection of science fiction short stories spans the writing career of this very prolific writer. The author has a powerful imagination and transports readers to places and situations never before imagined: from music and theatre on far away planets, to unusual crops causing concern in the prairies, to times far in the future with all kinds of fascinating creatures. The realm of possibility is endless in this author’s vivid imagination.” – Saskatchewan Book Awards (City of Regina Book Award) jurors Bruce Hunter, Betty Jane Hegerat, and Emily-Jane Hills Orford “Paths to the Stars is a well-written collection of science fiction. They are rich with imagination, and stimulate the reader’s interest in space and other worlds beyond our own small planet.” – Saskatchewan Book Award (Muslims for Peace and Justice Fiction Award) jurors Rona

Altrows, Dora Dueck, and Zoe S. Roy “I was happily surprised by *Paths to the Stars*. I don’t normally read short stories and was very wary of trying this book. However, I’m glad I gave it a chance. I loved how pretty much every story in *Paths to the Stars* was intriguing, quick, and rarely boring. I loved how the plot moved so elegantly fast and how the characters were so different from those in a regular story... The author’s writing is absolutely beautiful... The words just flowed off the page. It was an absolute delight to read. Overall, *Paths to the Stars* is an elegant, beautiful collection of short stories. I recommend it for anyone ages 12+.” – Jesus Freak (student reviewer), LitPick “Many students get their start as serious readers of science fiction and fantasy (SFF) in junior high or early senior high. Often they read the classics in the genre without ever realizing that SFF authors are alive and producing right here in Canada. *Paths to the Stars* offers readers a sly and good-humoured introduction to the work of Saskatchewan-based, award-winning writer Edward Willett... With their compression and light literary touches, these stories may nudge readers into reading more short fiction in SFF – and what a bounty is available today! They may also be a sneaky way to encourage less avid readers to explore the structure and features of literary short stories in a more palatable and accessible form. *Paths to the Stars* should have broad appeal and would make an excellent addition to a classroom library and a fine recommendation from a trusted reader. I really enjoyed this book.” – Leslie Vermeer, Resource Links “I enjoyed this collection, and if I had to give a one-word description, I’d say “reminiscent.” Reminiscent of what? Well, back when I was reading my first SF, I enjoyed the novels, like Heinlein, Asimov, and so on, but my first love was a good short story collection, each story being written by a different author... almost all seminal stories of science fiction and fantasy, and much that came after was a pale shadow. I say that Ed Willett’s little collection of 22 stories is not an imitation, nor are these stories old-fashioned—well, some are a bit old-fashioned in style, but that’s homage, I think, to, the stories Ed liked while he was learning to be a writer. But they remind me—not the least in variety—of those great collections of long ago.” – Steve Fahnstalk, *Amazing Stories* “From exploding fruits and vegetables to a shrine on the moon, dedicated to the memory of a devastated Earth, these stories will not disappoint. If you’re a fantasy and science fiction fan like I am, you’re sure to enjoy this rollercoaster of stories every bit as much as I did. I can sum my thoughts up in two words: ‘READ THEM!’” – Lorne McMillan, *Author of Isaac’s Blood* “These stories take completely fantastical concepts and pack them into a neatly accessible format which makes them enormously entertaining. Willett’s sense of humor in many of the stories is perfectly offset with his use of mystery and drama in others. There is a short story in this collection for every reader. I was never a sci-fi fan before, but I certainly am now!... Also, musical theatre worshipping aliens.” – A reviewer on Amazon.ca *Sticky the elf and his two best friends, Dumbley the dwarf and Robyn the elf, are headed on a Fantastic Adventure. They will journey from their sheltered, fantasy village of Shendale, hidden from human eyes in the forest, to the real world of humans, in Philadelphia, Pennsylvania - 1776. Along the way, this special elf will help everyone he meets, spreading his special brand of cheer and humor. He also learns a few special lessons of friendship, loyalty, and a touch of human history. Join Sticky and his friends as they embark on this Fantastic Adventure. With bubblegum goodness along the way! This is a first paragraph book aimed at 4th graders. However, when I read this to my grandkids (4-12), they loved it. My dad (89) read it and gave me a hug afterward and said, "Thank you for making me feel young again." This book is fun for all ages. Enjoy! In the final installment of *Beyond the Spiderwick Chronicles*, Nick and Laurie had thought they solved their giant problems when they drove all the giants into the sea. But now, the Grace kids have come back to tell them they may have more trouble coming their way! It turns out the giants control the population of Hydra, a dragon like creature that is creating sinkholes all over Florida. But with the mermaids refusing to return the giants to the shore, the nixie's still missing and the threat of a destroyed Florida drawing closer, the kids have to take matters in their own hands. Will Nick and Laurie be able to stop the destruction they unwittingly caused? Can a new giant hunter help save the day? Can Arthur Spiderwick's Field Guide help them out of this or are they on their own? Find out in the final conclusion of the*

Spiderwick saga! A skyscraper one mile high, a dome covering most of downtown Manhattan, a triumphal arch in the form of an elephant: some of the most exciting buildings in the history of architecture are the ones that never got built. These are the projects in which architects took materials to the limits, explored challenging new ideas, defied conventions, and pointed the way towards the future. Some of them are architectural masterpieces, some simply delightful flights of fancy. It was not usually poor design that stymied them – politics, inadequate funding, or a client who chose a ‘safe’ option rather than a daring vision were all things that could stop a project leaving the drawing board. These unbuilt buildings include the grand projects that acted as architectural calling cards, experimental designs that stretch technology, visions for the future of the city, and articles of architectural faith. Structures like Buckminster Fuller’s dome over New York or Frank Lloyd Wright’s mile-high tower can seem impossibly daring. But they also point to buildings that came decades later, to the Eden Project and the Shard. Some of those unbuilt wonders are buildings of great beauty and individual form like Etienne-Louis Boullée’s enormous spherical monument to Isaac Newton; some, such as the city plans of Le Corbusier, seem to want to teach us how to live; some, like El Lissitzky’s ‘horizontal skyscrapers’ and Gaudí’s curvaceous New York hotel, turn architectural convention upside-down; some, such as Archigram’s Walking City and Plug-in City, are bizarre and inspiring by turns. All are captured in this magnificently illustrated book. What if... anything was possible? What really lurks beneath the humdrum and the mundane, the ubiquitous and the familiar? And what if you came face to face with it? Enter a world where goddesses descend to earth, mythical creatures materialise out of thin air, ghosts mean well, and limbs have minds of their own. In a series of tales that explore the fantastical and the surreal, lives of ordinary people are upturned by bizarre incidents and mysterious happenings. Gloriously imagined, deliciously crafted and wickedly entertaining, *Eight* takes you on a fabulous romp around multiple countries and cultures of the world, with just a wee bit of something extra in the mix. Sit back, relax and get ready to savour a slice of some delectably fantastical cake! Netgalley reviews: "Delightful light confection that goes around the globe with short fantasy stories. From Argentina to somewhere in the air Hitting Germany, France, Egypt, Korea, China, India in-between. Little quick tastes of a dot of sweet, sour, spicy, hot & cold tidbits to make you smile or think. Most poignant I thought was the German & the rabbit but they were all tasty fare." "One of the reasons I love Gabriel Garcia Marquez is because of the magic realism. These 8 short stories take place in different countries and while dealing with very serious subjects (disability, addiction, loss, loneliness...) each of them has a touch of magic realism that make it very easy to get immersed in them." "This was such a magical book I thoroughly enjoyed every second of reading it. It was well written with such brilliant imagery. A great read." "I'll be honest straight away and say I have a hate/hate relationship with short stories and all my previous reviews will attest to that. No matter how many I read, I just don't enjoy them. They're not for me and never seem to grab me or keep me interested. But I think I've finally found the one collection that has shown me what a good short story can be. They're whimsical and magical and almost fairytale like but steeped in realism with an important life lesson at the end, but by approaching it in this way, they don't become corny or preachy or over the top." Presents an introduction to the faerie world, examples of thirty-one faerie species such as boggarts, goblins, sprites and pixies, and instructions on how to prepare for faerie investigations. *Worlds Beyond Imagination*. A utopian city levitates above a lush green Earth. A brilliant doctor specializing in the care and treatment of half-giants and pirate slugs discovers a terrible plague from another dimension. A headstrong teenage girl and her friendly monster enter a high-stakes race for survival. In a bleak and gray dystopian city, a singular butterfly heralds miraculous discoveries for a half-human cyborg. This is just a small sampling of the fantastical worlds imagined by visionary artist Matt Gaser. In this collection of paintings, sketches, and concept art, he will lead you on a journey to realms unlike anything you've ever seen in your wildest imaginings. Pack your bags, it's going to be an incredible ride. "I could smell their fear miles away. It smelled delicious. I burst out of the house screaming at the top of my lungs! I needed to wake them up. They were no longer home. They were in my

world now. In our world, flowers throw dirt, old women are dragons, monsters are children, and the trees not only move but they kill." Alia and Xander did not know what to expect on their first day as the apprentices to the Blue-winged faery tribe's Shaman, Bagby. Immediately upon meeting their ferocious teacher, they are told they will be her delivery faeries until summer's end. Each week they will be given a different magical item to deliver to a different faraway land. Their first assignment is to deliver a sacred box containing a piece of the sun to the High Priestess without delay. Alia and Xander have until dark to travel across monster infested lands to deliver the sacred box to the Eastern Sun Temple and then make it back home alive.

Presenting **KEEPER MARTIN'S GUIDE TO THE FANTASTICAL BEASTS AND FAERIE PEOPLES OF RUIN MIST** from Robert Stanek, the award-winning author of the #1 best-selling series *The Kingdoms and the Elves of the Reaches*. Beginning with a thoughtful and informative introduction, progressing through five exhaustive sections featuring thirty fantastical beasts and faerie peoples, this long-awaited compendium to the Ruin Mist phenomenon delivers enough information to satisfy even the most demanding fantasy enthusiast. Not only will readers learn about beasts and faerie peoples featured in the #1 best-selling books, they'll also learn about many wonderful new creatures. This premium quality, full-size edition includes ninety two full-color pages with twenty nine never-before-seen two-page spreads. Also included are dozens of notes by Keeper Martin.

www.ruinmistmovie.com. The New York Times-bestselling "skeptical environmentalist" argues that panic over climate change is causing more harm than good. Hurricanes batter our coasts. Wildfires rage across the American West. Glaciers collapse in the Arctic. Politicians, activists, and the media espouse a common message: climate change is destroying the planet, and we must take drastic action immediately to stop it. Children panic about their future, and adults wonder if it is even ethical to bring new life into the world. Enough, argues bestselling author Bjorn Lomborg. Climate change is real, but it's not the apocalyptic threat that we've been told it is. Projections of Earth's imminent demise are based on bad science and even worse economics. In panic, world leaders have committed to wildly expensive but largely ineffective policies that hamper growth and crowd out more pressing investments in human capital, from immunization to education. *False Alarm* will convince you that everything you think about climate change is wrong -- and points the way toward making the world a vastly better, if slightly warmer, place for us all.

Jack and the Fantastical Circus tells the story of a young boy Jack who is excited to visit his granddad and wants to know what virtue is. He falls asleep and goes on a magical journey through each train car where he meets the performers of the circus who all exhibit a particular virtue. When Gwendolyn Gray discovers her power to make her imaginings become real, she's whisked through new worlds, making friends and enemies along the way. But Gwendolyn must master her power in order to defeat the dark forces threatening the boring, grey City she comes from and the colorful new worlds she loves. Meet the boggarts, changelings, pixies, goblins and other creatures of Arthur Spiderwick's magical, fantastical world. From clever and informative introductory sections explaining essential preparations for your own faerie investigations and faerie world basics, to 6 exhaustive sections featuring 31 fabulous faerie species, to an addendum created by Jared Grace, the long-awaited companion to the *Spiderwick Chronicles* is sure to please any fan of the popular series.-- This is vol. 2 of the *Fantastical Enchantment* coloring book series. This book you can go on a journey to the depths of the Sea to where mermaids play and roam. Award winning Artist Sherrie Spencer explores her imagination once again in this magical coloring book series. This luminous picture book tells the fascinating true story of artist Nek Chand and how his secret art project—hidden away in a jungle—became one of India's most treasured wonders, second only to the Taj Mahal. In the bustle of the busy streets of Chandigarh, India, Nek Chand saw something no one else did. Where others saw rocks and stones, Nek saw the boyhood village he missed so dearly. Where others saw broken plates and glass, Nek saw laughing men. And where others saw trash, Nek saw beauty. Nek Chand's incredible rock garden, built from stone and scraps and concrete, began as a way for him to express his long-felt grief at having to leave his boyhood village due to the violence caused by the partition of India. What began as a secret and personal (not to

mention initially illegal) project became so much more, not only to Nek but to all of India. Serenity is your average, every day, somewhat nerdy young woman with a good job and a fairly non-existent social life. Though pretty, she hasn't had a date in three years. She leads an overly mundane existence until, one night, a life-altering event shows her that maybe things aren't so boring after all. During her awakening, she meets an unlikely traveler to help her on her journey. This anthology of five short stories unlocks doors hidden in-between worlds as it weaves a new perspective for Serenity to discover. Abruptly awakened in the middle of the night by a chance encounter with extraterrestrials, Chilip, age 12, and his 10-year-old sister Pourtney must overcome their silly sibling rivalry and work together as a team if they are to have any chance of saving the world--or at least their Dad-- from certain destruction. But the nagging question remains: did it ever really happen? Five charming stories using fantasy to encourage emulation of honorable attributes to children are presented as Charlie makes a great decision, protects a baby bird, calls for help, saves the spaceship, and brings joy to the little girl. Charlie The Bee's adventures are imaginative tales full of moral goodness and contain a good message worth hearing while, at the time, highlights the daily life of bees and creates an awareness of their role in the environment. The book challenges children to recognize and strive to live up to Charlie's principles in their own life. This collection of mystical folk tales about the Celtic hero Finn MacCoul is magical and bloodthirsty compendium full of humour, love and heroism. The legend of Finn exists in several cultures, but most notably in Scotland and Ireland, where he and the Fian, his band of loyal followers, are still important cultural figures. Many place names that grace the Celtic lands have their basis in these tales. Kyle Rhea, for example, between the Isle of Skye and the mainland is so called because of the terrible fate that befell one of the Fian while trying to save his wife - these warriors valued honour above all else. Justice was dispensed decisively to evil-doers and members of the Fian alike. Finn himself was more of a king than the kings he often met, for he alone was the arbiter of all conflicts. His was a life of constant risk combined with a simple belief in the power of good over evil. Finn travelled and fought wherever he was most needed. His dealings with the Lochlanners (Scandinavians) give us a stirring insight into a time where men risked their lives in pursuit of something more than mere wealth. This fabulous and evoking collection of heroic tales conjures a time and place where giants and magic were commonplace and danger was everywhere, where kings ruled over kingdoms, not countries. Companion to the best selling Folk Tales of Scotland. Only collection available of the Fenian cycle of stories. Stunningly illustrated by Paul Rumsey. #1 New York Times bestselling novelist Harlan Coben partners with a talented debut illustrator in this fantastical and funny adventure for fans of David Wiesner and William Joyce. Have you ever noticed how magical your family fridge is? Neither has Walden...until now. Suddenly he finds himself transported into one of his own drawings on the fridge as he begins an unforgettable adventure. He'll battle a crayon monster, catch an airplane ride into an old photo, escape a troop of monkeys and much more. All of the items displayed there have come alive to bring him a new understanding of his big, busy family. You'll love studying the dynamic, detailed illustrations in this zany, surprise-filled journey that culminates in a heartfelt appreciation of those closest to us. No Marketing Blurb Cora Goode has woken up in a fairytale world where she can understand what birds are saying to her, men ride horses and have fluffy feathers in their hats and furniture zigs, zags and whirls in miracles of construction. The problem is, she thinks she's in a dream but she's actually taken the place of the parallel universe Cora and without realizing it, our Cora does something that starts a centuries old curse that will sweep the land if she gets captured by the evil Minerva. At this point, her dream world becomes a nightmare. Luckily, hot guy, fantasyland Noctorno is there to save her from the clutches of the grotesque vickrants sent by Minerva to capture her. Unfortunately, hot guy, fantasyland Noctorno doesn't like the Cora of his world all that much (to say the least) and he thinks our Cora is her. And no matter what our Cora says or does to try to convince him, he won't be convinced. But Cora needs Tor to keep her safe and guide her through this fantastical world as she hopes one day to wake up in her not-so-great apartment in her not-so-great life in her world. The problem is, the more time she spends with the gorgeous

warrior Tor, the faster she falls in love with him. This micro story starts out from the perspective of a pre-teen relating macabre anecdotes about the first Ben Phelan. He scares his friends around a campfire, sharing the story of Mary Lee.
