Foundational Issues in Christian Education May 19 2020 For almost twenty years, Foundational Issues in Christian Education has been a key text for many Christian education courses. Its perceptive analysis coupled with clear writing make it a resource without peer. In the book, Christian education expert Robert Pazmiño guides readers through a comprehensive discussion of the interdisciplinary foundations of Christian education, calling all Christian educators to reevaluate the fundamentals of their discipline. "A careful exploration of foundations," writes Pazmiño, "is essential before specifying principles and guidelines for practice." This updated edition includes interaction with professional

developments over the past ten years and appendixes that assess the impact of postmodernism as an educational philosophy. In addition, each chapter includes "points to ponder" for personal reflection or classroom use.

Issues in Cultural Tourism Studies Mar 17 2020 The extensively revised second edition of Issues in Cultural Tourism Studies provides a new framework for analyzing the complexity of cultural tourism and its increasing globalization in existing as well as emergent destinations of the world. The book will focus in particular on the need for even more creative tourism strategies to differentiate destinations from each other using a blend of localized cultural products and innovative global attractions. The book explores many of the most pertinent issues in heritage, arts, festivals, indigenous, ethnic and experiential cultural tourism in urban and rural environments alike. This includes policy and politics; impact management

and sustainable development; interpretation and representation; marketing and branding; and regeneration and planning. As well as exploring the inter-relationships between the cultural and tourism sectors, local people and tourists, the book provides suggestions for more effective and mutually beneficial collaboration. New edition features include: an increased number of topical case studies and contemporary photographs which serve to contextualize the issues discussed a re-orientation towards global rather than just European issues three brand new chapters on The Geography of Cultural Tourism, The Politics of Global Cultural Tourism, and The Growth of Creative Tourism an extensively revised chapter on Experiential Tourism. At the interface between the global and the local, a people-centred approach to planning and development is advocated to ensure that benefits are maximized for local areas, a sense of place and identity are

retained, and the tourist experience is enhanced to the full. The text is unique in that it provides a summary and a synthesis of all of the major issues in global cultural tourism, which are presented in an accessible way using a diverse range of international case studies. This is a beneficial and valuable resource for all tourism students.

Global Issues, Local Arguments Nov 24 2020

Global Issues, Local Arguments: Readings for Writing features high-interest arguments on significant global issues and emphasizes their connection to students' lives-all the while developing critical thinking, rhetorical, analysis, synthesis, argumentation, and research skills. The first argument reader of its kind, Global Issues, Local Arguments: Readings for Writing provides an introduction to analyzing and writing arguments and explores oppositional and nuanced points of view on issues pertaining to

globalization: Free Trade, Immigration, Water Rights, Alternative Energy Resources, Culture, Social Media, Human Rights, and Global Pandemics. Students are asked to make connections between local actions and global issues so that they start to understand how writing can be a tool for learning and an agent of change-relevant and effective both inside and outside of academe. Conscientious, specific, and plentiful pedagogy introduces each issue, follows each reading, and concludes each chapter, continually asking students to break down and compare rhetorical argument strategies in use. Thoughtful writing prompts build from brief, informal writing assignments toward more comprehensive and formal rhetorical analyses and researched arguments. *Contemporary Issues in Higher Education Law* Jul 13 2022 Users of the 2nd Edition, from 2011, have found the book a practical, all-in-one guide covering higher education law as it affects students, faculty

and non-faculty employees, and administrators. The new edition provides a useful resource that reflects trends in the law, details current case law on a particular subject, and provides guidance on institutional policy for both public and private higher education institutions. This is an excellent text for courses in higher education law, providing board members, administrators, faculty, and students with a basis for informed decision making that will reduce the risk of liability through a preventive-law approach. The 3rd Edition contains a new chapter on religious colleges and universities, a complete listing of hundreds of cases cited, constitutional and federal statute references. Study questions and answers will be compiled in a separate guide for use by instructors. [Legal Considerations for Fire and Emergency Services, 3rd Edition](#) Aug 22 2020 The third edition of *Legal Considerations for Fire & Emergency Services* is a reader-friendly guide to the

challenging legal issues that firefighters and emergency service personnel encounter. Written by J. Curtis Varone, a practicing attorney as well as an experienced firefighter, this book explores such key topics as fire department liability, search and seizure, sovereign immunity, overtime laws, collective bargaining, OSHA compliance, workers' compensation, physical abilities testing, medical examinations, drug testing, discrimination, and sexual harassment. It is a perfect textbook for any course on fire service law as well as an indispensable desk reference for day-to-day fire department administration. Features of the new 3rd Edition:

- Updated cases on several topics including residency requirements, employment discrimination, and more
- Expanded treatment of hot topics such as digital imagery, social media, and electronic surveillance
- Meets the latest requirements for FESHE's Legal Aspects of the Fire Service curriculum
- Many new

photos and graphics to help connect cases to day-to-day issues in the fire service

- Coverage of recent changes to search and seizure law, use of digital photos and social media by emergency personnel, and fire department liability

Statistical Issues in Drug Development Jun 12 2022 Drug development is the process of finding and producing therapeutically useful pharmaceuticals, turning them into safe and effective medicine, and producing reliable information regarding the appropriate dosage and dosing intervals. With regulatory authorities demanding increasingly higher standards in such developments, statistics has become an intrinsic and critical element in the design and conduct of drug development programmes. Statistical Issues in Drug Development presents an essential and thought provoking guide to the statistical issues and controversies involved in drug development. This highly

readable second edition has been updated to include: Comprehensive coverage of the design and interpretation of clinical trials. Expanded sections on missing data, equivalence, meta-analysis and dose finding. An examination of both Bayesian and frequentist methods. A new chapter on pharmacogenomics and expanded coverage of pharmaco-epidemiology and pharmaco-economics. Coverage of the ICH guidelines, in particular ICH E9, Statistical Principles for Clinical Trials. It is hoped that the book will stimulate dialogue between statisticians and life scientists working within the pharmaceutical industry. The accessible and wide-ranging coverage make it essential reading for both statisticians and non-statisticians working in the pharmaceutical industry, regulatory bodies and medical research institutes. There is also much to benefit undergraduate and postgraduate students whose courses include a medical

statistics component.

The New Public Health Sep 15 2022 The New Public Health has established itself as a solid textbook throughout the world. Translated into 7 languages, this work distinguishes itself from other public health textbooks, which are either highly locally oriented or, if international, lack the specificity of local issues relevant to students' understanding of applied public health in their own setting. This 3e provides a unified approach to public health appropriate for all masters' level students and practitioners—specifically for courses in MPH programs, community health and preventive medicine programs, community health education programs, and community health nursing programs, as well as programs for other

medical professionals such as pharmacy, physiotherapy, and other public health courses. Changes in infectious and chronic disease epidemiology including vaccines, health promotion, human resources for health and health technology Lessons from H1N1, pandemic threats, disease eradication, nutritional health Trends of health systems and reforms and consequences of current economic crisis for health Public health law, ethics, scientific d health technology advances and assessment Global Health environment, Millennium Development Goals and international NGOs Health Issues in the Black Community Aug 14 2022 Health Issues in the Black Community THIRD EDITION "The outstanding editors and authors of Health Issues in the Black Community have placed in clear perspective the challenges and opportunities we face in working to achieve the goal of health equity in America." —David Satcher, MD, PhD, 16th Surgeon

General of the United States and director, Satcher Health Leadership Institute at Morehouse School of Medicine "Eliminating health disparities must be a central goal of any forward thinking national health policy. Health Issues in the Black Community makes a valuable contribution to a much-needed dialogue by focusing on the challenges of the black community." —Marc Morial, Esq., president, National Urban League "Health Issues in the Black Community illuminates comprehensively the range of health conditions specifically affecting African Americans, and the health disparities both within the black community and between racial and ethnic groups. Each chapter, whether addressing the health of African Americans by age, gender, type of disease, condition or behavior, is well-detailed and tells an important story. Together, they offer practitioners, consumers, scholars, and policymakers a crucial roadmap to address and change the social determinants of health, reduce disparities,

and create more equal treatment for all Americans." —Risa Lavizzo-Mourey, MD, MBA, president, Robert Wood Johnson Foundation "I recommend Health Issues in the Black Community as a must-read for anyone concerned about the future of the African American community. Health disparities continues to be one of the major issues confronting the black community. This book will help to highlight the issues and keep attention focused on the work to be done." — Elsie Scott, PhD, president of the Congressional Black Caucus Foundation "This book is the definitive examination of health issues in black America—issues sadly overlooked and downplayed in our culture and society. I congratulate Drs. Braithwaite, Taylor, and Treadwell for their monumental book." —Cornel West, PhD, professor, Princeton University

The Kid-Friendly ADHD & Autism Cookbook, 3rd edition

Dec 14 2019 The Kid-Friendly ADHD & Autism Cookbook, 3rd Edition explains the best diets for children with food intolerances and hypersensitivities that stem from altered biochemistry and which may be causing problems in learning, behavior, development, attention, sensory responses, sleep, and digestion. The authors provide guidelines to help parents determine which diets may be helpful for their child's specific symptoms and needs. One of the challenges that parents face is coping with children who have picky appetites and crave the very foods that negatively affect their behavior, focus, and development. Linked to this is the challenge of finding ways

to get their children to eat the healthy foods that will improve their nutrition. This book provides suggestions for feeding picky eaters, including those with texture issues. The 3rd edition of *The Kid-Friendly ADHD & Autism Cookbook* provides a current and greatly expanded review of the most commonly used diets that are important in the treatment of ADHD and autism. There are recipes appropriate to specific diets as indicated by icons and descriptors with each recipe. The authors share details about just how and why each diet works, examine specialty ingredients in-depth, and provide extensive resources and references. The specialty diets covered include: Gluten-free, casein-free, soy-free Feingold diet: low phenol, low salicylate diet Specific Carbohydrate Diet (SCD) and Gut and Psychology Syndrome Diet (GAPS) Anti-yeast/candida diets, or Body Ecology Diet Low Oxalate Diet (LOD) FODMAP (Fermentable Oligo-, Di- and Mono-saccharides, And Polyols) Anti-inflammatory diet

Rotation diet Despite the restrictions of these diets, this cookbook offers an array of tasty choices that kids and the whole family will love, including shakes, muffins, breads, rice and beans, vegetables, salads, main dishes, stews, and even sweets and treats. You'll also find recommendations for school lunches and snacks. This comprehensive guide and cookbook is chock-full of helpful info and research, and includes more than 150 kid-friendly recipes, suitable to the variety of specialty diets.

[Continuing Issues in Early Childhood Education](#) Dec 06 2021 Today's early childhood educators are faced with a great deal of responsibility and are called upon to make numerous decisions every day. They interact with children, families, colleagues, administrators, and policy makers. To be effective, their actions have to be based not on their own personal opinions, but by an understanding of the complexities related to each new, potentially controversial

issue and current research on child development and the best practices in early childhood education programs. This unique book aims to address this need for advanced students and veteran educators to have a bipartisan reference of the most important issues of the day as addressed by the most advanced scholars in the field. To do this, the authors have called on eighteen of the most influential educators of the day to contribute a chapter on each topic covered in the book. These multiple perspectives provide an unbiased overview of each issue. The issues covered include families, advocacy, children with disabilities, and diversity. Chapters on developmentally appropriate practices stimulate discussion of the influence of the National Association for the Education of Young Children (NAEYC.)
