The bestselling autobiography of Casey Stoner, Australia's two-time MotoGP Champion. 'If you never give up, anything can happen' - Casey Stoner Showing anything is possible when determination meets talent, two-time World MotoGP champion Casey Stoner shares his inspirational journey from Queensland toddler, with an extraordinary ability on a motorbike, to his decision to retire at twenty-seven with nothing left to prove. For the first time, he tells of his early family life, the development of his riding skills and why his parents decided to sell everything and travel from Australia to Europe to chase the dream and support his aim to become World Champion when he was only fourteen years old. As fearless with his opinions as he is on the racetrack, Casey includes all the highs and lows of his life so far: the real reason he left for Europe so young, his thoughts on racing as it stands today, the riders' hierarchy, the politics of racing, the importance of family, his battle with illness and why he decided to turn his back on a multimillion-dollar contract when he was still winning. And he

will let us in on some of the new goals he has set for himself. Pushing the Limits is a unique and remarkable account of self-sacrifice and determination to succeed against the odds, the inspiring story of a young Australian who took on the world on his terms, his way. . . and won. How do we prepare children for a future we can't even imagine? Across Canada, a debate swirls around what our children will need to know in the face of huge technological, economic, social and political change. The question has become an ideological battleground, and there is a hunger for a deeper understanding of what we should be doing to prepare children now for the challenges of the future. This timely, important book is an answer to that call. In Pushing the Limits, Kelly Gallagher-Mackay and Nancy Steinhauer draw on their experiences as educational leaders to reveal that the schools of the future exist in the here and now. They introduce us to extraordinary Canadian public schools, deeply rooted in their communities, that are fostering innovators, nimble problem-solvers and engaged citizens, boosting math comprehension, cultivating creativity and using technology to broaden the parameters of learning. And they explore why the role of schools is expanding to nurture students' social-emotional skills and growth mindsets, and how vital this broader definition of education is to children's long-term health, happiness and success. This book provides a vision of what schooling can and should look like in our rapidly shifting world and explores how we—parents and teachers—can realize this vision together. Transnational migration studies tend to conceptualize a clear spatial distinction between

refugee camps and their surroundings as "spaces of the displaced" and "spaces of the citizen" respectively. However, the geography of memory, when seen through the prism of a space-state-citizenship relationship, is much more complicated and difficult to disentangle. Only when examining cultural preservation of memories of displacement can we shed light on these complex connections. *Memory, Conflicts, Disasters, and the Geopolitics of the Displaced* is a collection of innovative research that examines the preservation of socio-cultural memory in the wake of disaster and violence. Featuring coverage of a broad range of topics including conscription, refugee culture, and climate change, this book is ideally designed for human rights workers, activists, historians, policymakers, government officials, researchers, academicians, and students in the fields of sociology, anthropology, geography, politics, and urban planning. Available by popular demand, the latest installment of the beloved, award-winning *Pushing the Limits* series

Quadriplegics simply do not walk again - yet millions watched as Chris Norton defied incredible odds and took step by impossible step across his graduation stage. With his fiancée Emily by his side, those unbelievable steps became the start of an extraordinary journey for them both. Told from both of their unique perspectives, this moving story invites you to find, as Chris and Emily have, that God can transform our lowest points into life's greatest gifts. In a moment, Chris went from a talented college football player with a promising future to a quadriplegic with a 3 percent chance of ever moving or feeling anything below his neck, much less walking again. Determined to prove the doctors wrong, he pushed himself through grueling, daily workouts to achieve his goal four years later: walking the stage to receive his college diploma with Emily's help, and to the world's astonished applause. Meanwhile, Emily faced her own challenges as she sunk into a deep battle against anxiety and depression, despite her life's outward blessings. Day by day, decision by decision, Chris and Emily committed themselves to taking the extra step, trusting God, and leaning on the help of others. In a story of courageous faith and grit, this extraordinary couple's journey ultimately led them to tackle the seven longest yards - down the wedding aisle and into a new life together. And what a new life it is: Chris and Emily have adopted five beautiful girls and welcomed foster children - seventeen and counting! - into their home and

hearts. Let this book be your inspiration for defying your own impossible, and finding joy on the other side. Here are two dozen tales in the grand adventure of engineering from the Henry Petroski, who has been called America's poet laureate of technology. *Pushing the Limits* celebrates some of the largest things we have created—bridges, dams, buildings—and provides a startling new vision of engineering's past, its present, and its future. Along the way it highlights our greatest successes, like London's Tower Bridge; our most ambitious projects, like China's Three Gorges Dam; our most embarrassing moments, like the wobbly Millennium Bridge in London; and our greatest failures, like the collapse of the twin towers on September 11. Throughout, Petroski provides fascinating and provocative insights into the world of technology with his trademark erudition and enthusiasm for the subject.

Vice Admiral Allan Rockwell McCann left no reminiscences that might reveal a deeper sense of his extraordinary service, but naval historian Carl LaVO has filled that void by writing this revealing—and often inspiring—biography. Among McCann's many accomplishments: Served as liaison officer for the modification of the antiquated O-12 submarine into the privately-leased Nautilus that made the first attempt to sail beneath the Arctic ice shelf in 1931; pioneered the McCann Submarine Rescue Chamber; directed fire from the sub tender Pelias at Japanese aircraft attacking Pearl Harbor; commanded the battleship Iowa during the Battle of Leyte Gulf; was Chief of Staff of the Navy's 10th Fleet that stymied a last ditch effort to attack North America via U-boats; headed the Navy task

force that transported President Truman to the Potsdam conference; and as ComSubPac was aboard the first submarine to navigate under the polar ice in 1947. This book is an overdue appreciation of a significant admiral who has been all but ignored in naval history. The sheltered daughter of a motorcycle club leader falls unexpectedly in love with a blue-eyed youth who aspires to join the club by protecting her from vindictive rivals.

Andrew Denton 'Aside from all the medals, accolades and achievements, in my humble opinion it is his larrikin sense of humour, positive attitude to life, never forgetting where he comes from and his belief that there is nothing he can't do that makes him a national treasure.' bestselling author Jessica Clare Subtitle in pre-publication: The true story of the de-extinction of one of history's most iconic creatures. More Than Words: Bestselling authors and real-life heroines Every year, Harlequin's More Than Words award is given to three real-life heroines, women whose courage and vision have helped change people's lives for the better. Once again, three bestselling Harlequin authors have written stories inspired by these remarkable women. In Red at Night, Stella and Jonah are total opposites. She's the girl with purple hair from the wrong part of town. He's a high school senior who hangs with the cool crowd. Until a car accident leaves him haunted by guilt, and Jonah starts spending time at Stella's favorite refuge..the local cemetery. Stella knows she should keep her distance—after all, she spent her girlhood being bullied by Jonah's friends. Once he's sorted out his tangled emotions, Jonah won't have time for her anymore. Too bad she's already fallen for him... Look for all three ebooks inspired by real-life heroines: Red at Night by Katie McGarry, You Are Here by Liz Fichera and The Gift of a Good Start by Earl Sewell.
