Imagining Japan Mar 17 2020 "Bellah is a sociologist with a grand vision of history, deeply concerned with the twists and turns of religious values, weaving pre-modern religious thinking into the debates of modernization and modernity. He takes a reflective turn with *Imagining Japan*, evidencing his profound concern with religious evolution."—Tetsuo Najita, University of Chicago "One of the most original attempts to understand some of the psychological and symbolic roots of the central problems in Japanese history. Bellah masterfully brings together intellectual and institutional dimensions of Japan, making a very important contribution to Japanese Studies."—S. N. Eisenstadt, Professor Emeritus at Hebrew University and author of *Japanese Civilization: A Comparative View*

The Impact of You Feb 14 2020 ****New Adult Romance**** Needing an escape from her past, Avery chooses a college where no one knows her. Keeping a low profile was the plan, falling for the intense frat boy, Jase wasn't. Yet she can't deny how alive she feels when he's near. Even as common sense implores her to stay away, her body begs her to get closer. Jase, numb from his own family drama, has grown bored with weekends fueled by nameless girls and countless bottles when he meets Avery. Helping her cope with her past is better than dealing with the bullshit his own life's served up. Determined to drive away the painful secret she's guarding, he appoints himself her life coach, and challenges her to new experiences. Getting close to her and being the one to make her smile are simply perks of the job. But when Avery's past boldly saunters in, refusing to be forgotten, can Jase live with the truth about the girl he's fallen for? Recommended for 17+ due to mature themes and sexual content.

Landscape Painting of China and Japan May 19 2020 *The Landscape Painting of China and Japan* presents for the first time in English a full and lucid account of the remarkable art form which, as a distinct tradition in Oriental art, has come to be universally recognized as one of the greatest in the world. The author points out how essential it is to an understanding of the Orient when he says: "In China alone, landscape painting has religious as well as philosophical significance...and in consequence is one of the great manifestations of the human spirit, as well as the most remarkable creation of the Chinese artistic genius." And it was this same artistic tradition which, brought to Japan, was transmuted by the intense Japanese love of nature into paintings that "for sheer beauty of color and design have few equals," leading at last to the simplicity and grandeur of the uniquely Japanese woodblock print. Writing for scholar and layman alike, the author carefully traces the evolution of the art throughout its long history, discusses the major artistic personalities against their cultural backgrounds, and systematically describes the development and forms of the landscape. The text is thoroughly illustrated with over a hundred carefully selected plates and a colored frontispiece.

Designing Distributed Control Systems Apr 10 2022 *Designing Distributed Control Systems* presents 80 patterns for designing distributed machine control system software architecture (forestry machinery, mining drills, elevators, etc.). These patterns originate from state-of-the-art systems from market-leading companies, have been tried and tested, and will address typical challenges in the domain, such as long lifecycle, distribution, real-time and fault tolerance. Each pattern describes a separate design problem that needs to be solved. Solutions are provided, with consequences and trade-offs. Each solution will enable piecemeal growth of the design. Finding a solution is easy, as the patterns are divided into categories based on the problem field the pattern tackles. The design process is guided by different aspects of quality, such as performance and extendibility, which are included in the pattern descriptions. The book also contains an example software architecture designed by leading industry experts using the patterns in the book. The example system introduces the reader to the problem domain and demonstrates how the patterns can be used in a practical system design process.

The example architecture shows how useful a toolbox the patterns provide for both novices and experts, guiding the system design process from its beginning to the finest details. Designing distributed machine control systems with patterns ensures high quality in the final product. High-quality systems will improve revenue and guarantee customer satisfaction. As market need changes, the desire to produce a quality machine is not only a primary concern, there is also a need for easy maintenance, to improve efficiency and productivity, as well as the growing importance of environmental values; these all impact machine design. The software of work machines needs to be designed with these new requirements in mind. Designing Distributed Control Systems presents patterns to help tackle these challenges. With proven methodologies from the expert author team, they show readers how to improve the quality and efficiency of distributed control systems.

The Art of Alloplastic Facial Contouring Jul 13 2022 Packed with the latest information from the pioneers in alloplastic facial contouring, THE ART OF ALLOPLASTIC FACIAL CONTOURING is unlike any other reference available. This comprehensive resource explores various alloplastic materials that can be used in facial contouring and illustrates the specific techniques used in various facial anatomic locations. Both traditional and contemporary concepts of facial beauty and aesthetics have been included. The only reference of its kind to fully define the relationship of facial aesthetics to alloplastic implant shapes, sizes, and positioning. A clear and user-friendly framework, organised by anatomic facial regions, allows you to find the information you need quickly and easily. In-depth coverage of upper facial contouring, lower third contouring and soft tissue augmentation.

Origins of Modern Japanese Literature Jun 19 2020 Karatani Kojin is one of Japan's leading critics. In his work as a theoretician, he has described Modernity as have few others; he has re-evaluated the literature of the entire Meiji period and beyond. As one critic has said, Karatani's thought "has had a profound effect on the way we formulate the questions we ask about modern literature and culture ... [his] argument is compelling, moving even, and in the end the reader comes away with a different understanding not only of modern Japanese literature but of modern Japan itself." Among the many authors discussed are Soseki Natsume, Doppo Kunikida, Katai Tayama, and Shoyo Tsubouchi.

The End of Celluloid Dec 26 2020 Explores the diverse and inspirational works of filmmakers such as Lars Von Trier, Spike Jonze and David Lynch, as well as computer game creators, music pioneers and commercial directors. The author highlights how new techniques and innovative talent are infiltrating the mainstream.

Japanese Philosophy Nov 12 2019 With *Japanese Philosophy: A Sourcebook*, readers of English can now access in a single volume the richness and diversity of Japanese philosophy as it has developed throughout history. Leading scholars in the field have translated selections from the writings of more than a hundred philosophical thinkers from all eras and schools of thought, many of them available in English for the first time. The Sourcebook editors have set out to represent the entire Japanese philosophical tradition—not only the broad spectrum of academic philosophy dating from the introduction of Western philosophy in the latter part of the nineteenth century, but also the philosophical ideas of major Japanese traditions of Buddhism, Confucianism, and Shinto. The philosophical significance of each tradition is laid out in an extensive overview, and each selection is accompanied by a brief biographical sketch of its author and helpful information on placing the work in its proper context. The bulk of the supporting material, which comprises nearly a quarter of the volume, is given to original interpretive essays on topics not explicitly covered in other chapters: cultural identity, samurai thought, women philosophers, aesthetics, bioethics. An introductory chapter provides a historical overview of Japanese philosophy and a discussion of the Japanese debate over defining the idea of philosophy,

both of which help explain the rationale behind the design of the Sourcebook. An exhaustive glossary of technical terminology, a chronology of authors, and a thematic index are appended. Specialists will find information related to original sources and sinographs for Japanese names and terms in a comprehensive bibliography and general index. Handsomely presented and clearly organized for ease of use, *Japanese Philosophy: A Sourcebook* will be a cornerstone in Japanese studies for decades to come. It will be an essential reference for anyone interested in traditional or contemporary Japanese culture and the way it has shaped and been shaped by its great thinkers over the centuries.

Machine Tools for High Performance Machining Jan 19 2023 Machine tools are the main production factor for many industrial applications in many important sectors. Recent developments in new motion devices and numerical control have led to considerable technological improvements in machine tools. The use of five-axis machining centers has also spread, resulting in reductions in set-up and lead times. As a consequence, feed rates, cutting speed and chip section increased, whilst accuracy and precision have improved as well. Additionally, new cutting tools have been developed, combining tough substrates, optimal geometries and wear resistant coatings. "Machine Tools for High Performance Machining" describes in depth several aspects of machine structures, machine elements and control, and application. The basics, models and functions of each aspect are explained by experts from both academia and industry. Postgraduates, researchers and end users will all find this book an essential reference.

The Eclogues and Georgics of Virgil Jan 07 2022

Estrategias y modelos de negocio Feb 20 2023 Una guía para todas las personas interesadas en el mundo empresarial y el emprendimiento. El objetivo esencial de este libro es ayudar al emprendedor a alcanzar el éxito en su negocio. Intenta satisfacer una necesidad más latente que nunca en nuestros días, entre los emprendedores, hacer sostenible y competitiva la empresa fundada. Incluye 12 casos prácticos que se convierten en una suerte de brújula para orientar a los emprendedores.

The Bride of Almond Tree Oct 04 2021 Welsey Cunningham grew up running barefoot through the orchards of his Quaker family farm, working with horses and dreaming of one day building himself a house on his own patch of ground above the river. The Second World War interrupted those dreams: it took Wes to New Guinea as a medic, and then sent him home with healing bullet wounds in his legs. While Wes was away, life in Almond Tree continued; but everyone's been changed by the war. None more so than Beth Hardy - his headstrong, fiercely intelligent and beautiful neighbour. As Wes begins again to construct the peaceful life he's always wanted, Beth sets herself on a very different path, committing herself to the Communist Party and all it stands for. Their dreams and desires may be at odds, but there is something they don't yet know. Wes and Beth need each other, desperately: neither will be able to survive what life has in store without the other.

Crime Stories Mar 09 2022 "This collection of five stories explores a variety of different literary approaches to the genre of horror." -- Product description.

Civilization and Monsters Sep 22 2020 Discusses the representation/role of the supernatural or the "fantastic" in the construction of Japanese modernism in late 19th and early 20th century Japan.

Japan's Modern Myths Jan 27 2021 Ideology played a momentous role in modern Japanese history. Not only did the elite of imperial Japan (1890-1945) work hard to influence the people to "yield as the grasses before the wind," but historians of modern Japan later identified these efforts as one of the underlying pathologies of World War II. Available for the first time in paperback, this study examines how this ideology evolved. Carol Gluck argues that the process of formulating and communicating new national values was less consistent than is usually supposed. By immersing the reader in the talk and thought of the late Meiji period, Professor Gluck recreates the diversity of ideological discourse experienced by Japanese of the time. The result is a new interpretation of the views of politics and the nation in imperial Japan.

Routledge Handbook of Street Culture Jul 01 2021 Discussions of street culture exist in a variety of academic disciplines, yet a handbook that brings together the diversity of scholarship on this subject has yet to be produced. The Routledge Handbook of Street Culture integrates and reviews current

scholarship regarding the history, types, and contexts of the concept of street culture. It is comprehensive and international in its treatment of the subject of street culture. Street culture includes many subtypes, situations, locations, and participants, and these are explored in the various chapters included in this book. Street culture varies based on numerous factors including capitalism, market societies, policing, ethnicity, and race but also advances in technology. The book is divided into four major sections: Actors and street culture, Activities connected to street culture, The centrality of crime to street culture, and Representations of street culture. Contributors are well respected and recognized international scholars in their fields. They draw upon contemporary scholarship produced in the social sciences, arts, and humanities in order to communicate their understanding of street culture. The book provides a comprehensive and accessible approach to the subject of street culture through the lens of an inter- and/or multidisciplinary perspective. It is also intersectional in its approach and consideration of the subject and phenomenon of street culture.

Gender and Spoken Interaction Apr 29 2021 This diverse collection of gender research with an exclusive focus on spoken interaction explores how gender is reflected and accomplished in relation to other situational and larger-scale sociocultural practices, identities and structures.

Handbook of High-Speed Machining Technology Dec 18 2022 The United States now spends approximately \$115 billion annually to perform its metal removal tasks using conventional machining technology. Of this total amount, about \$14 billion is invested in the aerospace and associated industries. It becomes clear that metal removal technology is a very important candidate for rigorous investigation looking toward improvement of productivity within the manufacturing system. To aid in this endeavor, work has begun to establish a new scientific and technical base that will provide principles upon which manufacturing decisions may be based. One of the metal removal areas that has the potential for great economic advantages is high-speed machining and related technology. This text is concerned with discussions of ways in which high-speed machining systems can solve immediate problems of profiling, pocketing, slotting, sculpturing, facing, turning, drilling, and thin-walled sectioning. Benefits to many existing programs are provided by aiding in solving a current management production problem, that of efficiently removing large volumes of metal by chip removal. The injection of new high-rate metal removal techniques into conventional production procedures, which have remained basically unchanged for a century, presents a formidable systems problem, both technically and managerially. The proper solution requires a sophisticated, difficult process whereby management-worker relationships are reassessed, age-old machine designs reevaluated, and a new vista of product/process planning and design admitted.

MLC: Animal Stories Advanced Aug 22 2020

iF Design Awards 2014 May 11 2022 The iF Design Awards 2014 annual presents all winners of the iF product design awards 2014 and the iF communication and packaging design awards 2014 - including some 2000 entries. New this year is that all iF awards from this year are published in one comprehensive volume and sorted according to the manufacturer. This provides the reader with an even more convenient overall survey. As always, this reference work provides an international cross-section over various fields of design and serves as an archive of the manufacturers and designers who have been honoured. This new portrayal of the winning entries is combined with the iF design award-APP 2014, which is released simultaneously. SELLING POINTS: A source of inspiration for designers and those interested in design, containing all winning entries in product and communication design in 2014, this is the ultimate reference book and archive for manufacturers and designers. 1500 colour illustrations

The Aesthetics of Resistance, Volume II Nov 05 2021 A major literary event, the publication of the second volume of Peter Weiss's three-volume novel *The Aesthetics of Resistance* makes one of the towering works of twentieth-century German literature available to English-speaking readers for the first time. The crowning achievement of Peter Weiss, the internationally renowned writer best known for his play *Marat/Sade*, *The Aesthetics of Resistance* spans the period from the late 1930s to World War II, dramatizing antifascist resistance and the rise and fall of proletarian political parties in Europe. Volume

II, initially published in 1978, opens with the unnamed narrator in Paris after having retreated from the front lines of the Spanish Civil War. From there, he moves on to Stockholm, where he works in a factory, becomes involved with the Communist Party, and meets Bertolt Brecht. Featuring the narrator's extended meditations on paintings, sculpture, and literature, the novel teems with characters, almost all of whom are based on historical figures. Throughout, the narrator explores the affinity between political resistance and art—the connection at the heart of Weiss's novel. Weiss suggests that meaning lies in embracing resistance, no matter how intense the oppression, and that we must look to art for new models of political action and social understanding. *The Aesthetics of Resistance* is one of the truly great works of postwar German literature and an essential resource for understanding twentieth-century German history.

Metalworking Lathes Aug 14 2022

Nylon Plastics Handbook Feb 08 2022 This handbook addresses nylon plastics technology, including blending and toughening. State-of-the-art analytical techniques, transition phenomena, and structural details are fully discussed.

Fairies Afield Jun 12 2022 *Fairies Afield* is a delightful children's book with kind and generous kids doing wonderfully lovely things, for which they receive magical prizes from fairies. It contains four charming stories. "Ask the Robin" deals with two orphaned sisters who need to survive on their own but may require help from fairies. "A Magic Table" is about three poor cousins who must earn the right to inherit their uncle's assets. "The Weather Maiden" revolves around a shy young girl having an awful time adapting to living with her aunt and uncle. "The Enchanted Trunks" deals with a girl who decides to travel with her cousin, but her main concern is being able to pack everything efficiently.

Electronic Document Preparation and Management for CSEC May 31 2021 Completely matching the CXC syllabus, *Electronic Document Preparation and Management for CSEC* provides comprehensive coverage and is a key text for all students taking the exam. This book offers plenty of examples showing processes step by step, Activities, Tasks and Test Yourself, along with exercises that meet the requirements of the SBA.

Multicultural Child Maltreatment Risk Assessment Apr 17 2020 *Multicultural Child Maltreatment Risk Assessment* provides detailed descriptions of child maltreatment assessment and key strategies for culturally informed risk assessment in families. The book presents a new model for evaluating families that includes cultural competence, a conceptualization of adequate parenting, and strategies for reflective decision making. Chapters address a range of factors including race, ethnicity, religion, gender, and sexuality. Ten case studies, each including discussion prompts, challenge the reader to apply forensic evaluation techniques for effective and ethical decision making in complex and ambiguous cases. Both experienced mental health providers and students will come away from the book with a deeper understanding of child maltreatment and its effects, models and modes of assessment, and factors that place families at greater risk.

Public Sociology Nov 24 2020 From the future of work to the nature of our closest relationships, how do we understand the links between our personal troubles and wider public issues in society today? Now into its fourth edition, *Public Sociology* continues to highlight the relevance of a grounded sociological perspective to Australian social life, as well as encouraging students to apply a sociological gaze to their own lives and the communities in which they live. *Public Sociology* presents a wide range of topics in a user-friendly and accessible way, introducing key theories and research methods, and exploring core themes, including youth, families and intimate relationships, class and inequality and race and ethnic relations. All chapters have been extensively revised to bring them up to date in a fast-changing social world, reflecting the latest sociological debates in response to changing lifestyles and evolving political landscapes. In addition to updated statistics and research findings, an expanded glossary and the latest citations to the scholarly literature, the text features a completely new chapter on gender and sexualities with expanded discussion of LGBTIQ+. This new edition also explores contemporary issues ranging from the #MeToo movement to marriage equality, fake news and 'alt facts'. This is the essential sociological reference to help students make sense of a complex and

challenging world. NEW TO THE FOURTH EDITION: * A new chapter on gender and sexualities and expanded discussion of intersectionality * Exploration of the latest social issues including #MeToo, rising inequality, and the 'post-truth' age * All chapters thoroughly revised and updated with the latest research * Updated book website with extra readings, YouTube clips, and case studies * A new feature, Visual Sociology, helps the reader analyse the power of visual messaging 'With a firm base in the richest traditions of the discipline and with a remarkably approachable format, this book offers an excellent introduction to a wide array of sociology's concerns, making it suitable for all Australian social science undergraduates.' Gary Wickham, Emeritus Professor of Sociology, Murdoch University 'A sophisticated yet accessible introduction to social identities, differences and inequalities, and social transformations.' Jo Lindsay, Professor in Sociology, Monash University 'Sweeping and lucid...communicates with ease and simplicity.' Toni Makkai, Emeritus Professor, College of Arts and Social Sciences, Australian National University

Economía y tecnología del control numérico para máquinas herramientas Nov 17 2022

Reassembling the Social Feb 25 2021 French sociologist Bruno Latour has previously written about the relationship between people, science and technology. In this book he sets out his own ideas about 'actor network theory' and its relevance to management and organisation theory.

Monadology and Sociology Sep 03 2021 Gabriel Tarde's *Monadology and Sociology*, originally published in 1893, is a remarkable and unclassifiable book. It sets out a theory of 'universal sociology', which aims to explicate the essentially social nature of all phenomena, including the behaviour of atoms, stars, chemical substances and living beings. He argues that all of nature consists of elements animated by belief and desire, which form social aggregates analogous to those of human societies and institutions. In developing this central insight, Tarde outlines a metaphysical system which builds on both classical rationalist philosophy and the latest scientific theories of the time, in a speculative synthesis ...
