Cash Flow Statement

This book is the definitive
guide to cash flow statement

analysis and forecasting. It
takes the reader from an
introduction about how cash
flows move within a business,
through to a detailed review of
the contents of a cash flow
statement. This is followed by
detailed guidance on how to
restate cash flows into a
template format. The book
shows how to use the template
to analyse the data from start
up, growth, mature and
declining companies, and those
using US GAAP and IAS
reporting. The book includes
real world examples from such
companies as Black and Decker
(US), Fiat (Italy) and Tesco
(UK). A section on cash flow
forecasting includes full
coverage of spreadsheet risk

and good practice. Complete
with chapters of particular
interest to those involved in
credit markets as lenders or
counter-parties, those running
businesses and those in equity
investing, this book is the
definitive guide to
understanding and interpreting
cash flow data. Blank Weekly
