Congressional Record Jan 07 2022 The Congressional Record is the official record of the proceedings and debates of the United States Congress. It is published daily when Congress is in session. The Congressional Record began publication in 1873. Debates for sessions prior to 1873 are recorded in The Debates and Proceedings in the Congress of the United States (1789-1824), the Register of Debates in Congress (1824-1837), and the Congressional Globe (1833-1873)

Entrepreneurs in the Southern Upcountry Sep 22 2020 In Entrepreneurs in the Southern Upcountry, Bruce W. Eelman follows the evolution of an entrepreneurial culture in a nineteenth-century southern community outside the plantation belt. Counter to the view that the Civil War and Reconstruction alone brought social and economic revolution to the South, Eelman finds that antebellum Spartanburg businessmen advocated a comprehensive vision for modernizing their region. Although their plans were forward looking, they still supported slavery and racial segregation.

By the 1840s, Spartanburg merchants, manufacturers, lawyers, and other professionals were looking to capitalize on the area's natural resources by promoting iron and textile mills and a network of rail lines. Recognizing that cultural change had to accompany material change, these businessmen also worked to reshape legal and educational institutions. Their prewar success was limited, largely due to lowcountry planters' political power. However, their modernizing spirit would serve as an important foundation for postwar development. Although the Civil War brought unprecedented trauma to the Spartanburg community, the modernizing merchants, industrialists, and lawyers strengthened their political and social clout in the aftermath. As a result, much of the modernizing blueprint of the 1850s was realized in the 1870s. Eelman finds that Spartanburg's modernizers slowed legal and educational reform only when its implementation seemed likely to empower African Americans.

History of Spartanburg County Apr 10 2022 This scarce work should be of interest to all researchers with early Tennessee ancestors inasmuch as it covers the controversial period prior to statehood when the settlement in eastern Tennessee was under quasi-independent rule. One such controversy involved the creation in 1784 by John Sevier and others of a separate, self-governing territorial unit from lands in western North Carolina known as the State of Franklin. The Franklin episode, and all of its participants, is the subject of this volume.
