Building upon the book *Disappearing Destinations* (Jones and Phillips 2010) and its conclusion that promoted the need to recognize problems, meet expectations and manage solutions *Global Climate Change and Coastal Tourism* explores current threats to, and consequences of, climate change on existing tourism coastal destinations. Part 1 of the book provides a theoretical platform and addresses topics such as sustainability, tourism impacts, governance trade and innovation and how the media addresses climate change and tourism. It also assesses management and policy options for the future sustainability of threatened tourism coastal destinations. Part 2 presents case studies from all regions of the world (Europe, The Americas, Asia, Africa and Australasia) which synthesise findings to make recommendations that can be used to promote strategies that ameliorate projected impacts of climate change on coastal tourism infrastructure and in turn promote the future sustainability of coastal tourism destinations. This is a timely and informative text with appeal to researchers, undergraduate and post graduate students of tourism management, tourism planning, sustainable tourism development and leisure management, coastal tourism/management, environmental management/planning, geography, coastal zone management or climate change studies. This collection provides an in-

depth and up-to-date examination of the concept of Intangible Cultural Heritage and the issues surrounding its value to society. Critically engaging with the UNESCO 2003 Convention for the Safeguarding of the Intangible Cultural Heritage, the book also discusses local-level conceptualizations of living cultural traditions, practices and expressions, and reflects on the efforts that seek to safeguard them. Exploring a global range of case studies, the book considers the diverse perspectives currently involved with intangible cultural heritage and presents a rich picture of the geographic, socioeconomic and political contexts impacting research in this area. With contributions from established and emerging scholars, public servants, professionals, students and community members, this volume is also deeply enhanced by an interdisciplinary approach which draws on the theories and practices of heritage and museum studies, anthropology, folklore studies, ethnomusicology, and the study of cultural policy and related law. The *Routledge Companion to Intangible Cultural Heritage* undoubtedly broadens the international heritage discourse and is an invaluable learning tool for instructors, students and practitioners in the field. Despite improved access to higher education for women, the distribution of women and men varies considerably between fields of study. The chapters in this edited collection explore the participation status of women in higher education across the varying socio-economic and sociological backgrounds observed in different countries and regions. VOCÊ JÁ PENSOU EM SAIR DO BRASIL e residir no exterior, seja em

Portugal ou em qualquer outro país do mundo? Sabe como funciona o processo de saída definitiva do Brasil e os efeitos da condição de não residente no patrimônio e nos negócios? Essa obra é um verdadeiro guia com informações essenciais sobre o processo de saída definitiva do país, abordando os cuidados que devem ser tomados no processo de emigração e se propondo a responder as principais dúvidas dos potenciais emigrantes. Além disso, são apresentados aspectos relevantes para o planejamento pré-imigratório, como as principais formas de ingresso por meio de vistos (D7, Startup Visa) e autorização de residência condicionada à realização de investimento em imóvel ou outros ativos (golden visa), obtenção de cidadania portuguesa seja por meio do casamento ou união estável com nacional português, netos de portugueses ou descendentes de judeus sefarditas e também o regime tributário benéfico aplicado aos residentes não habituais (RNH). Why has Portugal's vibrant and creative cinema industry not been more commercially successful? Este livro, escrito a muitas mãos, constitui-se em uma homenagem à linguista brasileira Maria Eugenia Lammoglia Duarte, cuja trajetória acadêmica confunde-se com o próprio percurso da Linguística no Brasil. O Português Brasileiro, objeto de estudo 'caprichosamente' complexo, mutável e apaixonante, é o fio condutor dessa obra. Sobre ele, tratam os 17 artigos aqui reunidos, que espelham a mesma paixão pelos estudos linguísticos que tem a homenageada. O presente livro tem a sua gênese nos resultados obtidos no âmbito de um projeto de investigação europeu [1] que envolveu oito países, entre os quais Portugal (Oliveira et al., 2014), tendo como questão de partida: porquê estudar a integração política de imigrantes e de portugueses de origem imigrante, quando o próprio exercício dos direitos políticos no âmbito do paradigma nacional de cidadania parece ser hoje questionado? Em síntese, este estudo procura caracterizar, por um lado, os direitos políticos que os imigrantes têm em Portugal (capítulo 1), atendendo assim aos contornos do enquadramento legal e institucional nacional que definem a capacidade eleitoral ativa e passiva dos diferentes cidadãos residentes no país; e, por outro lado, a partir das percepções

dos participantes dos quatro focus groups promovidos e dos entrevistados (51 pessoas no total), analisar a relação que se estabelece em Portugal entre os partidos políticos e os cidadãos imigrantes e de origem imigrante (capítulo 2), e a efetiva participação e representação política dos imigrantes percebida pelas elites políticas e pelos representantes de comunidades imigrantes (capítulo 3). Estando o estudo orientado pela procura de respostas às questões em cima elencadas, com rigor científico e pragmatismo, conclui com a sinalização de algumas oportunidades e obstáculos identificados ao lugar da diversidade cultural e étnica na democracia portuguesa. Finalmente, conscientes da necessidade e da importância de se recolherem contributos que otimizem a qualidade dos processos de decisão pública em matéria de integração política dos imigrantes, no contexto de uma sociedade plural e integradora, o estudo apresenta ainda no final inúmeras recomendações dirigidas a diferentes atores - aos partidos políticos e elites políticas, ao legislador, à sociedade civil, e aos académicos e investigadores. Cinemas em Português. Moçambique. Auto e heteropercepções é um volume que resulta do 6º Simpósio Internacional de Cinemas em Português, realizado na Universidade de Coimbra em 2015, dedicado ao cinema moçambicano desde o tempo colonial até à atualidade, num ano em que os países africanos de língua portuguesa celebraram quarenta anos de independência. No encontro esteve presente uma delegação moçambicana, constituída pelo professor e investigador Nataniel Ngomane, pelos realizadores Licínio de Azevedo, Sol de Carvalho, João Ribeiro e Diana Manhiça e ainda pelo diretor do INAC Djalma Lourenço. Para além destes, estiveram presentes ou

colaboraram no volume investigadores de Itália (Livia Apa e Francesca de Rosa), Brasil (Jorge Cruz) e Portugal (José Manuel Costa, Ansgar Schaefer, Sílvia Vieira, Paulo Cunha e Jorge Seabra), tendo debatido, durante dois dias, o cinema moçambicano do tempo colonial à atualidade e as realidades e perspetivas daquela cinematografia. O volume que agora se publica, ao reunir grande parte das comunicações então apresentadas, com outras colaborações que entretanto surgiram, é um contributo para a visibilidade e o conhecimento de uma cinematografia que já atingiu um patamar de reconhecimento internacional assinalável e, simultaneamente, reforçar a diferença e a importância dos cinemas falados em português.

Portuguese Cinema. Mozambique. Self and HeteroPerceptions is a book that results from the 6^o International Symposium of Portuguese Cinemas, organized at Coimbra University at 2015, that has treated mozambican cinema from colonial time till nowadays, in a year that african portuguese language countries celebrate the 40^o year of independance. In the meeting were presente a mozambican delegacy, which includes the reseacher and professor Nataniel Ngomane, the directors Licínio de Azevedo, Sol de Carvalho, João Ribeiro and Diana Manhiça, and Djalma Lourenço as director of the INAC. Behond those, were also present or cooperate in the book researchers from Italy (Livia Apa and Francesca de Rosa), Brazil (Jorge Cruz) and Portugal (José Manuel Costa, Ansgar Schaefer, Sílvia Vieira, Paulo Cunha and Jorge Seabra), debating, during two days, mozambican cinema from colonial time till actuality or its realities and perspectives. This is the first book in English to offer an overview of the development of the sport industry in Spain and Portugal, examining the social, economic, cultural, and political impact sport has had in this region and on world sport more broadly. Drawing on sources in Spanish and Portuguese, the book presents important new perspectives and empirical material not previously available to English-speaking audiences. With a strong focus on management, development, economics, governance and law, set in a broader historical and socio-cultural context, the book explains the unique characteristics of the sport industry in the Iberian Peninsula. It takes a deep dive into

Spanish and Portuguese football - in many ways the centre of gravity of Iberian sport - and into sport tourism, a hugely significant component of the broader economy of the region. The book also considers important emerging themes in Iberian sport, from the development of women's sport to the global profile of Cristiano Ronaldo and Rafael Nadal, and considers the wider influence of Iberian sport across the wider Hispanic diaspora. This is fascinating and illuminating reading for anybody with an interest in sport business and management, global sporting cultures, international business, or Hispanic or Latin American studies. Many invertebrates are serious pests of agriculture (e.g., mites and locusts), vectors of disease (e.g., mosquitoes and aquatic snails) and venomous (e.g., scorpions), whilst others are beneficial to humans as pollinators, food sources, and detritivores. Despite their obvious ecological, medical, and economic importance, this is the first comprehensive review of invertebrate diseases to be available within a single volume. Concurrent molecular and bioinformatics developments over the last decade have catalysed a renaissance in invertebrate pathology. High-throughput sequencing, handheld diagnostic kits, and the move to new technologies have rapidly increased our understanding of invertebrate diseases, generating a large volume of fundamental and applied research on the topic. An overview is now timely and this authoritative work assembles an international team of the leading specialists in the field to review the main diseases and pathologic manifestations of all the major invertebrate groups. Each chapter adopts a common plan in terms of its scope and approach to achieve a succinct and coherent synthesis. Invertebrate Pathology is aimed at graduate students and researchers in the fields of disease ecology, invertebrate biology, comparative immunology, aquaculture, fisheries, veterinary science, evolution, and conservation. It will be particularly useful for readers new to the field as well as a broader interdisciplinary audience of practitioners and resource managers. This manual is the first comprehensive account of Brazilian Portuguese linguistics written in English, offering not only linguists but also historians and social scientists

new insights gained from the intensive research carried out over the last decades on the linguistic reality of this vast territory. In the 20 overview chapters, internationally renowned experts give detailed yet concise information on a wide range of language-internal as well as external synchronic and diachronic topics. Most of this information is the fruit of large-scale language documentation and description projects, such as the project on the linguistic norm of educated speakers (NURC), the project "Grammar of spoken Portuguese", and the project "Towards a History of Brazilian Portuguese" (PHPB), among others. Further chapters of high contemporary interest and relevance include the study of linguistic policies and psycholinguistics. The manual offers theoretical insights of general interest, not least since many chapters present the linguistic data in the light of a combination of formal, functional, generative and sociolinguistic approaches. This rather unique feature of the volume is achieved by the double authorship of some of the relevant chapters, thus bringing together and synthesizing different perspectives. Esta obra reúne um conjunto de textos, resultantes das comunicações apresentadas no colóquio comemorativo dos 600 anos da criação da Província de Portugal da Ordem dos Pregadores (Dominicanos), que decorreu no Palácio Fronteira e no Convento de São Domingos em Lisboa. Dito colóquio, pela sua dimensão - não só em termos de número de conferências, mas principalmente na multiplicidade de áreas temáticas abrangidas (História, Arte, Literatura, Espiritualidade, Teologia, Missionaçã, Pedagogia, Semiótica) - destacou a presença dominicana e os rastros deixados por esta em Portugal e no mundo. Conferencistas de diversas universidades do país e do estrangeiro, de diferentes centros de investigação e academias, apresentam abordagens distintas, linhas de investigação recentes e em aberto, com dados inéditos e novas problemáticas. "This volume addresses the question of how societies with developed welfare and social service systems are assessing current needs and future directions in their residential child and youth care sectors. This includes dealing with the historical concerns raised about the placement of children and youth in

residential care settings as well as identifying innovative strategies, which offer new pathways for the integration of this often neglected area of service with families and communities. This review builds on an emergent and growing literature of cross-national child welfare policies and practices including child protection arrangements (Gilbert et al., 2011) and meeting the needs of migrant children (Skivenes et al., 2014). Our contributors share a common child welfare goal of seeking to ensure healthy growth and development for children served in order to achieve desired social outcomes for the community at large. Each of the sixteen countries selected for inclusion will be viewed through a common template including the policy context (historical developments, key trends and policy initiatives), promising programmatic innovations, and information obtained from a matrix developed in an earlier research effort (Erasmus+ Project) by Sigrid James and colleagues from five European countries (James et al., 2021). The Erasmus+ project, along with the matrix and rationale for its use, is described in detail in Chapter 3"-- This book focuses on the dynamic process of aging and on interventions to support the development of older and integrated societies, from a multidisciplinary point of view. Gathering contributions from researchers and professionals with different backgrounds, including social and health sciences, education, engineering and IT, biology, geography and environmental science, it aims at understanding the phenomenon of population aging, in order to contribute to the development of future functional communities, fostering well-being and autonomy of the elderly, their integration and participation. Based on the proceedings of the 2nd International Congress Age.Comm Longevity and Development, organised online on November 11-12, 2021, from Castelo Branco, Portugal, this book addresses a wide range of specialists dealing with the process of aging, integration and community development in the societies of the future. As migrações forçadas ocorrem quando um indivíduo é compelido a deixar seu local de origem em virtude de uma ameaça a sua vida ou integridade física, decorrente de crises econômicas, desastres naturais, conflitos armados, dentre outros. É nesse contexto que estão inseridos os

refugiados, deslocados ambientais e deslocados internos. Conforme o ACNUR, metade do contingente de refugiados no mundo é composto por menores de 18 anos, dos quais boa parte está migrando desacompanhada. Trata-se de uma situação extremamente delicada, especialmente em se tratando de crianças na primeira infância. Nesse sentido, por meio de revisão de literatura de obras dos principais autores brasileiros e estrangeiros que trabalham com o tema em comento, bem como a utilização do método dedutivo e sistêmico, esta obra tem o objetivo geral de discutir as políticas públicas relacionadas à migração infantil no Brasil, especialmente em relação aos menores refugiados desacompanhados, a fim de identificar a resposta da República Federativa do Brasil a esse fenômeno. This book provides empirically grounded insights into the causes, trajectories, and effects of a severe decline in university autonomy and the relationship to other dimensions of academic freedom by comparing in-depth country studies and evidence from a new global timeseries dataset. Drawing attention to ongoing discussions on standards for monitoring and assessment of academic freedom at regional and international organizations, this book identifies a need for clearer standards on academic freedom and a human rights-based definition of university autonomy. Further, the book calls for accompanying international oversight and the inclusion of criteria related to academic freedom in international university rankings. Five expert-authored case studies on academic freedom from diverse nations (Bangladesh, Mozambique, India, Poland, and Turkey) are included in the volume. Drawing on both qualitative and quantitative evidence, the book offers a unique and timely contribution to the field and will be of great interest to scholars, researchers, and students in the fields of higher education, human rights, political science and public policy. The first comprehensive and definitive history of Brazil's decision to give up the nuclear weapon option. Why do countries capable of "going nuclear" choose not to? Brazil, which gained

notoriety for developing a nuclear program and then backtracking into adherence to the nonproliferation regime, offers a fascinating window into the complex politics surrounding nuclear energy and American interference. Since the beginning of the nuclear age, author Carlo Patti writes, Brazil has tried to cooperate with other countries in order to master nuclear fuel cycle technology, but international limitations have constrained the country's approach. Brazil had the start of a nuclear program in the 1950s, which led to the United States interfering in agreements between Brazil and other countries with advanced nuclear industries, such as France and West Germany. These international constraints, especially those imposed by the United States, partly explain the country's decision to create a secret nuclear program in 1978 and to cooperate with other countries outside the Nuclear Non-Proliferation Treaty [NPT] regime, such as Argentina and China. Yet, in 1998, Brazil chose to adhere to the Nuclear Non-Proliferation Treaty it so actively opposed only three decades prior, although the country still critiques the unfair nature of the treaty. Patti draws on recent declassified primary sources collected during years of research in public and private archives in eight different countries, as well as interviews with former presidents, diplomats, and scientists, to show how US nonproliferation policies deeply affected Brazil's decisions. Assessing the domestic and international factors that informed the evolution of Brazil's nuclear diplomacy, *Brazil in the Global Nuclear Order, 1945-2018* also discusses what it means with respect to Brazil's future political goals. A obra que ora se publica engloba, na sua conjuntura, uma panóplia de textos dirigidos a todos aqueles que se interessam pelo ensino-aprendizagem das crianças nos primeiros tempos de escolaridade. Os textos que integram este livro resultam de pesquisas várias que abarcam quer a emergência em escrita e leitura, quer o desenvolvimento da língua portuguesa, quer a presença de textos de literatura infantil. No seu conjunto, todos os textos apresentam facetas plurais sobre o ensino da língua portuguesa, a par de outras linguagens, buscando, na sua desconstrução, novos caminhos e novas descobertas susceptíveis de fertilizarem as

prácticas pedagógicas. The treatment of Muslims is the touchstone of contemporary European racism across its many nations and localities. We make a definitive case for two arguments in this book: firstly, the recognition of the accelerating and pervasive nature of Islamophobia in this region; and secondly, recognition that this process is being, can be, and will be challenged by counter-narratives that make the claim for Muslim humanity, plurality, space and justice. This book draws on new evidence from eight national contexts to provide an innovative kit of counter-narratives, which were presented and well received at the European Parliament in September 2018, and subsequently launched across Europe in national workshops in selected states. A synergy between leading academic researchers and the Islamic Human Rights Commission, Countering Islamophobia in Europe will be of value to EU institutions, governments and policy-makers, NGOs and media organisations, as well as researchers of multiculturalism, Islam, Muslims and immigration. O livro propõe diálogos em relação ao ensino de Língua Portuguesa na atualidade, com temáticas que perpassam a sua concretização no século XXI; a dicotomia de ensino pré e pós-pandemia; formação de professores de Língua portuguesa: o papel do educador e o Ensino de Língua portuguesa segundo a BNCC. Hace un año se celebraba en la Facultad de Filología de la Universidad de Salamanca, el Congreso La Lengua Portuguesa, bajo los auspicios del Centro de Estudios Brasileños, promotor de esta justificada y necesaria iniciativa en el contexto hispánico. Estos volúmenes se publican, bajo la denominación genérica de La Lengua Portuguesa las más de ciento cincuenta conferencias y comunicaciones de este magno Congreso. En torno a dos grandes bloques, Lengua y Literatura, en los que hemos aglutinado todas las intervenciones, se articulan diversos ejes fundamentales, también semánticamente muy ricos, encuadrados todos ellos bajo el concepto de lengua y cultura de expresión portuguesa: metodología y enseñanza de la lengua, historia de la lengua (sintaxis, morfología, fonética, léxico...), lingüística diacrónica y sincrónica, dialectología, literatura comparada, literaturas de lengua portuguesa de

diferentes épocas y países, etc., etc. No es fácil conseguir los textos escritos de todos los participantes cuando no se entregan antes o inmediatamente después de su intervención. Nuestra intención fue (y así lo comunicamos a los congresistas) su inmediata publicación posterior, y, aunque sabemos de la dificultad de cumplir plazos, nos hemos visto obligados a cerrar -después de varias demoras el elenco de intervenciones, sin poder incluirlas todas. A su sesión de apertura acudieron las autoridades académicas y municipales de esta ciudad, así como representantes diplomáticos de diferentes países de lengua portuguesa, como Portugal, Brasil, Angola y Cabo Verde, representado este país por su embajador en Madrid. A todos ellos nuestro agradecimiento. This book adopts a multidisciplinary approach to try to answer the question of how do we, as human beings, go from the socially neutral linguistic act of discriminating external stimuli to the socially loaded act of promoting social discrimination through language? This contributed volume brings together works presented at the international event "From Discriminating to Discrimination - The Influence of Language on Identity and Subjectivity". This was an online event hosted and organized by the Brandenburg University of Technology (BTU), Germany, in partnership with São Paulo State University (UNESP), Brazil, that brought together lecturers from different universities around the world. During the event, linguists, psychologists, language teachers, social workers and pedagogues got together to discuss how discriminating can be recognized as a natural and important ability of the human being in the early stages of life and, after that, how to avoid discriminatory acts against others. The debates held online took into account the important and necessary dialogue between linguistics and other social sciences to discuss the role played by language as a form of building subjectivity and teaching practices that can contribute to minimize discrimination and promote integration and acceptance in a broad sense, understanding the preponderant role of language in recognizing what is different (discriminating), without diminishing or excluding it (discrimination). From Discriminating to Discrimination: The Influence of Language on

Identity and Subjectivity will help linguists, psychologists, educators, social workers and a broad range of social scientists working with cognitive, linguistic and educational studies understand the path taken by differentiation, from the beginning of the child's language development - when discrimination (of sounds, gestures, etc.) is essential for the acquisition of language to occur -, until the moment when differentiation, discrimination, ceases to be an essential factor and becomes a means of social segregation. This volume considers the Arabic and African Diasporas through the underexplored Afro-Hispanic, Luso-Africans, and Mahjari (South American and Mexican authors of Arab descent) experiences in Spain, Portugal, and Latin America. Utilizing both established and emerging approaches, the authors explore the ways in which individual writers and artists negotiate the geographical, cultural, and historical parameters of their own diasporic trajectories influenced by their particular locations at home and elsewhere. At the same time, this volume sheds light on issues related to Spain, Portugal, and Latin American racial, ethnic, and sexual boundaries; the appeal of images of the Middle East and Africa in the contemporary marketplace; and the role of Spanish, Portuguese and Latin American economic crunches in shaping attitudes towards immigration. This collection of thought-provoking essays extends the concepts of diaspora and transnationalism, forcing the reader to reassess their present limitations as interpretive tools. In the process, Afro-Hispanic, Afro-Portuguese, and Mahjaris are rendered visible as national actors and transnational citizens. This book includes 21 chapters dedicated to the study of contemporary, Portuguese and Brazilian poets influenced by the Greco-Roman tradition. It integrates the international bibliography on reception studies in an Ibero-American context. However, the comparison between poets from the two countries highlights the cultural community that, despite the differences, unites them. Travels, routes, and adventures, taken in a linear or symbolic sense, are the common trace of all contributions. The variety of tastes, the greater or smaller closeness to the ancient models, and the authors' preferences contribute to an overall

view of the classical imprint on contemporary poetry as a specific area of literature. Mano a Mano: Português para Falantes de Espanhol vem preencher uma importante lacuna no mercado editorial: a carência de livros didáticos que, considerando as necessidades específicas de falantes de espanhol, favoreçam um desenvolvimento mais rápido de sua proficiência em português. A coleção reúne uma série de características favoráveis à aprendizagem do português em diferentes contextos (ensino médio, universidades, cursos livres): Convida o(a) aluno(a) a desenvolver sua proficiência em português ao mesmo tempo em que forma uma imagem multifacetada do Brasil, em diálogo com suas próprias construções culturais, desconstruindo discursos estabilizados e ampliando seus horizontes; Favorece o trânsito por múltiplas práticas de letramento, em que circulam diferentes gêneros discursivos, oferecendo oportunidades para que o(a) estudante aprimore suas capacidades de linguagem em contextos reais, ou próximos a situações autênticas de interação; Sensibiliza o(a) aluno(a) para diferentes variedades da língua portuguesa; Permite ao(a) estudante desenvolver suas capacidades léxico-gramaticais e fonético-fonológicas de maneira reflexiva e contextualizada, levando em consideração necessidades específicas de falantes de espanhol; Propõe tarefas semelhantes às encontradas no Certificado de Proficiência em Língua Portuguesa para Estrangeiros (Celpe-Bras), do Ministério da Educação brasileiro; É acompanhado por dois cadernos complementares integrados, com explicações detalhadas referentes a recursos léxico-gramaticais e fonético-fonológicos, além de uma série de atividades; Disponibiliza online os vídeos e áudios de tarefas de compreensão oral e de atividades de pronúncia. Preparado para o desenvolvimento de um curso de até 60 horas em contexto de imersão, ou 90 horas em contexto de não-imersão, Mano a Mano, Volume 2 - Intermediário permite levar falantes de espanhol (como língua materna ou estrangeira/adicional) do início do Intermediário Superior do Celpe-Bras, do início do B1 ao início do B2 do Quadro Europeu Comum de Referência para as Línguas, ou do início do Intermediário Médio ao início do Avançado Médio na escala do

American Council on the Teaching of Foreign Languages. Este livro trata sobre o direito de nacionalidade e o regime internacional de proteção às pessoas apátridas. A apatridia, termo cuja aceção, de modo imediato e simples, significa a ausência de pátria, é um fenômeno que afeta a vida de milhões de pessoas no mundo inteiro. O indivíduo apátrida, em razão da ausência de vínculo jurídico-político de nacionalidade com o Estado em que nasceu ou em que reside, encontra-se impedido de acessar serviços básicos e praticar atividades cotidianas. Nesse sentido, discussões sobre o tema em questão vêm aumentando no âmbito internacional com o fito de que cada Estado-nação ajude a solucionar a questão da apatridia mediante melhorias em suas legislações internas. Utilizando linguagem didática, os autores examinam os principais instrumentos normativos para a proteção do direito de nacionalidade e apresentam reflexões sobre o tema sob a ótica dos direitos humanos. This book aims at deconstructing and problematizing linguistic ideologies related to Portuguese in late modernity and questioning the theoretical presuppositions which have led us to call Portuguese 'a language.' Such an endeavor is crucial when we know that Portuguese is a language which is increasingly internationalized, used as the official language in four continents (in ten countries) and which has come to play a relevant role in the so-called linguistic market on the basis of the geopolitical transformations in a multipolar world. The book covers a wide range of social, political and historical contexts in which 'Portuguese' is used (in Brazil, Canada, East-Timor, England, Portugal, Mozambique and Uruguay), and considers diverse linguistic practices. Through this critique, contributors chart new directions for research on language ideologies and language practices (including research related to Portuguese and to other 'languages') and consider ways of developing new conceptual compasses that are better attuned to the sociolinguistic realities of the late modern era, in which people, texts and languages are increasingly in movement through national borders and those of digital networks of communication. Health literacy in practice requires the development of techniques that ensure that the patient can better access

information, understand its content, know how to use this information, and make better health decisions. If the patient makes better health decisions, there are immediate reflexes in health outcomes. The aim is to develop an approach based on the commitment and creation of an atmosphere of trust that reduces uncertainty, anxiety, and embarrassment based on a process of assertive, clear, and positive communication (ACP model). The Handbook of Research on Assertiveness, Clarity, and Positivity in Health Literacy brings the consolidation of knowledge, strategies, and techniques to improve health literacy. This book discusses the importance of making sound health decisions: decisions that can save lives, prevent premature deaths, avoid hospitalizations and abusive resources to medical emergencies, and improve overall health outcomes for the individual, family, community, and society. Covering topics such as dietary guidance, health behavior change models, and medication reconciliation, this resource has theoretical and practical aspects essential to health information libraries, hospitals, clinics, health centers, health schools, patient associations, health professionals, medical students, researchers, professors, and academicians. 'Vários Orientes' é uma coletânea de ensaios sobre os mais diversos temas ligados ao estudo das civilizações asiáticas. Reunindo pesquisas de todo o Brasil, o objetivo do livro é revelar que é possível o estudo dos muitos 'Orientes' em nosso país. Ana Beatriz Ribeiro's Modernization Dreams, Lusotropical Promises investigates where Eurocentric and Afro-Brazilian considerations might intersect, diverge and date back to in development discourse, gauging relations between the Brazilian and Mozambican states, said to be joined in cooperation more than others. material. Boa sorte e bom estudo! The aim of this book is to show how wine tourism can be used as a model for sustainable economic development, driving economic growth and social development in some locations. It will explore the interaction between tourism and viticulture in wine tourism destinations, while also explaining some of the repercussions of these activities. This book covers various topics including regional development, environmental management, sustainable viticulture, quality management in wineries and wine tourism routes among others. Wine tourism, which combines two important yet distinct economic activities (i.e., tourism and viticulture), has recently emerged as a new tourism product driven by tourists' search for new experiences and wineries' need to diversify their businesses and seek new revenue streams to boost sales. This new form of tourism, which typically takes place in rural areas and which combines wine production with tourist activities, is becoming important for such regions by providing a complementary income source. It provides a model for sustainable economic development for these regions, which for various reasons may otherwise struggle to develop. Featuring cases and business implications from various locations, this book provides an important source of knowledge—both theoretical and practical—suitable to academics, scholars, researchers, and practitioners in the tourism sector and the wine industry. Population aging is a growing challenge worldwide. As such, new models of provision, organization, and allocation of resources, particularly in healthcare, are needed. As the self-care and long-term care needs of this age group become more prevalent, the importance of improved health services and effective health management strategies are apparent. The Handbook of Research on Health Systems and Organizations for an Aging Society provides emerging research exploring the challenges and opportunities for the development and management of health systems and organizations in relation to people aged 65 and over. Featuring coverage on a broad range of topics such as emotional wellness, long-term care, and professional caregiving, this book is ideally designed for health technicians, doctors, nurses, pharmacists, hospital administrators,

clinical directors, laboratory technicians, medical professionals, researchers, and students.
