Americans have been riding bikes for more than a century now. So why are most American cities still so ill-prepared to handle cyclists? James Longhurst, a historian and avid cyclist, tackles that question by tracing the contentious debates between American bike riders, motorists, and pedestrians over the shared road. Bike Battles explores the different ways that Americans have thought about the bicycle through popular songs, merit badge pamphlets, advertising, films, newspapers and sitcoms. Those associations shaped the actions of government and the courts when they intervened in bike policy through lawsuits, traffic control, road building, taxation, rationing, import tariffs, safety education and bike lanes from the 1870s to the 1970s. Today, cycling in American urban centers remains a challenge as city planners, political pundits, and residents continue to argue over bike lanes, bike-share programs, law enforcement, sustainability, and public safety. Combining fascinating new research from a wide range of sources with a true passion for the topic, Longhurst shows us that these battles are nothing new; in fact they're simply a continuation of the original battle over who is - and isn't - welcome on our roads. An exciting travel guide for Upstate New York road warriors, history lovers, and tourists. In Upstate Uncovered Chuck D'Imperio mines deep into his travel journal and shares an astonishing array of fun and amazing places in Upstate New York that the casual traveler might otherwise miss. As one of Upstate's most ardent advocates, D'Imperio has traveled the backroads and byways of the region seeking out the stories, tales, and folklore writ upon the landscape. He takes readers to one hundred small towns and cities from the Hudson Valley to the High Peaks of the Adirondacks and out through the rolling hills of the Finger Lakes region. Not only a reflection of "the road less traveled," Upstate Uncovered includes pertinent information such as websites, photographs, personal interviews, and explicit directions to each of the included entries. While flipping through the pages, readers will be amazed at what turns up around every backroads corner in the region. "This book is a delight. It's raw meat for people (like me) who love to find and enjoy obscure historical treasures, but it is much more. Anyone who lives or travels in Upstate New York will be surprised and delighted at how much there is to discover and enjoy there. The nation's smallest church? The grave of 'The Moses of her people'? New York's biggest pair of pants? The town where 'Oz' began? A two-story outhouse? (You read it right.) The birthplace of The Twilight Zone? They're all here, and more, in witty, warm, and lucid prose. Enjoy. You will." -- Mac Nelson, author of Twenty West: The Great Road Across America "Upstate New York--the area north of New York City--is full of interesting and historically significant places to visit, explore, and enjoy. Much of its history has been slighted or overlooked. Chuck D'Imperio seems to have visited just about every community in New York in the course of his research for Upstate Uncovered and previous excellent books on the region. D'Imperio has a flair for descriptive and evocative writing, bringing history to life through his on-site interviews and shrewd historical observations. This is exciting history, well told, and engaging. Even readers who know New York history will find lots of surprises and new insights. Upstate Uncovered conveys a deep sense of the variety, vitality, and drama of Upstate New York's history." -- Bruce W. "Set in Calgary in 1982, during the recession that arrived on the heels of Canada's National Energy Program, The Western Alienation Merit Badge follows the Murray family as they struggle with grief and find themselves on the brink of financial ruin. After the death of her stepmother, Frances "Frankie" Murray returns to Calgary to help her father, Jimmy, and her sister, Bernadette, pay the mortgage on the family home. When Robyn, a long-lost friend, becomes their house guest old tensions are reignited and Jimmy, Bernadette and Frances find themselves increasingly alienated from one another. Part family drama, part queer coming-of-age story, The Western Alienation Merit Badge explores the complex dynamics of a small family falling apart."-- This book provides a guide for a long-overdue public dialogue about why and how we need to reinvent our nation's schools. How has the world changed for our children; what do all students need to know in light of these changes; how do we hold students and schools accountable for results; what do good schools look like; and what must leaders do to create more of these schools? These are some of the questions that drive this book. The answers emerging to these questions may surprise many. The most successful public schools of the 21st century look a lot more like our 19th century village schools than our current factory model of schooling. This book describes these "new village schools" that have been created in the last decade and suggests that they are a prototype for the schools of the future.
